This document contains the NSW Education Standards Authority requirements for assessing and reporting achievement in the Year 11 and Year 12 courses for the Higher School Certificate, and provides details of the HSC examination in this course. From time to time, changes are made to HSC assessment and examination requirements. Such changes will be made available through updates to these materials. Please note that the version on the NSW Education Standards Authority website is always the current version.

Introduction to Assessment in Stage 6

The NSW Education Standards Authority (NESA) promotes a standards-referenced approach to assessing and reporting student achievement.

Assessment is the process of gathering valid and useful information and making judgements about student achievement for a variety of purposes.

In Stage 6, those purposes include:

- assisting student learning
- evaluating and improving teaching and learning programs
- providing evidence of student achievement and course completion in Year 11 and Year 12 courses
- providing data for the end of school credential, the Record of School Achievement (RoSA) or Higher School Certificate (HSC).

Schools are required to develop an assessment program for each Year 11 and Year 12 course. NESA provides information about the responsibilities of schools in developing assessment programs in course-specific assessment and reporting requirements and in Assessment Certification Examination (ACE).

Assessment for, Assessment as, Assessment of Learning

Assessment is an essential component of the teaching and learning cycle. Assessment for, assessment as and assessment of learning are approaches that enable teachers to gather evidence and make judgements about student achievement. These are not necessarily discrete approaches and may be used individually or together and formally or informally.

Assessment is most effective when students:

- are involved in setting learning goals
- know and understand assessment criteria
- are able to monitor their own learning and reflect on their progress
- receive feedback that helps them understand how to improve their learning.
School-based Assessment in Stage 6

All teaching and learning activities are considered important for understanding course content and developing knowledge, understanding and skills in a subject. School-based assessment involves a range of informal (formative) assessment and formal (summative) assessment to provide information about student achievement of syllabus outcomes. Informal and formal assessment assists teachers to make judgements about student progress. A range of assessment activities and tasks provides opportunities for students to demonstrate achievement of syllabus outcomes in different ways.

Informal assessment

Teachers use informal assessment opportunities throughout the teaching and learning cycle to gather evidence about how students learn and what they know. Informal assessment includes activities undertaken and anecdotal evidence gathered throughout the teaching and learning process in a less prescribed manner than formal assessment.

These activities provide evidence for teachers and inform feedback to students in relation to improving their learning. Informal assessment may include a range of strategies such as questioning, class discussion, observation and student self-evaluation.

Formal assessment

Formal school-based assessment provides opportunities to gather evidence about student achievement of syllabus outcomes in different ways to the HSC examinations. Formal assessment tasks are those which students undertake as part of the school-based assessment program, reflecting specific course requirements, components and weightings.

A formal assessment task may contain more than one part. The task notification should detail the requirements for each part, including that all parts are to be submitted and/or completed together.

Tests of limited scope (ie include a small number of content areas or topics or modules) will continue to be relevant and appropriate methods of formal assessment. These types of tasks are not considered as formal written examinations.

A formal written examination is defined as a task such as a Half Yearly, Yearly or Trial HSC Examination completed during a designated examination period. It is undertaken individually, under supervised examination conditions and includes one or more unseen questions or items. A formal written examination is used to gather evidence about student achievement of a range of syllabus outcomes, at a point in time. A formal written examination is often in the format of an HSC examination and typically draws from most or all content areas or topics or modules completed at that point in time. Schools are able to schedule more than one written examination to provide opportunities for students to prepare for and experience examination conditions. However, only one formal written examination can contribute to a formal assessment schedule.
Evidence gathered through formal assessment assists teachers to report on student achievement in relation to syllabus outcomes and standards at a point in time, and is often used for grading or ranking purposes. The components and weightings and the prescribed nature of some tasks ensure a common focus for school-based assessment in a course across schools, while also allowing for flexibility in the design of some tasks at the school level.

Further guidance and advice can be found on the NESA website.
Year 11 English Studies School-based Assessment Requirements

The components and weightings for Year 11 are mandatory.

<table>
<thead>
<tr>

<td>100</td>
</tr>
</tbody>
</table>

The Year 11 formal school-based assessment program is to reflect the following requirements:

- three assessment tasks
- the minimum weighting for an individual task is 20%
- the maximum weighting for an individual task is 40%
- only one task may be a formal written examination
- one task must be a collection of classwork demonstrating student learning across the modules studied with a minimum weighting of 30%
- one task must be a multimodal presentation enabling students to apply their knowledge, understanding and skills to at least one real world scenario using a range of modes.

Information about the collection of classwork in English Studies

The assessment of a collection of classwork is designed to allow students to demonstrate their learning across all of the modules studied in each year. This collection of work may include items of classwork that have been refined as a result of teacher feedback throughout the year. This work may be published in a variety of forms and media.

Information about the multimodal presentation in English Studies

The multimodal presentation is designed to provide students with the opportunity to apply their knowledge, understanding and skills to a real world scenario across a range of modes. A multimodal presentation includes at least one mode other than reading and writing such as listening, speaking, viewing and representing.

No specific weightings have been allocated to the modes to allow flexibility in task design and to meet the needs and interests of students in a range of contexts.
**Year 12 English Studies School-based Assessment Requirements**

There is no compulsory HSC external examination in English Studies. Students may elect to sit an optional HSC examination.

NESA requires schools to submit a school-based assessment grade for each Year 12 candidate in this course. Formal school-based assessment tasks are based on course requirements and components and weightings that contribute to the determination of the final grade for this course. The result submitted by the school provides a summation of each student’s achievement measured at several points throughout the course. Further information on the awarding of grades and reporting on Stage 6 HSC English Studies is provided in the Reporting in Stage 6 section of this document.

The school-based assessment grade submitted to NESA for Year 12 must not include measures of outcomes that address values and attitudes or reflect student conduct. Schools may decide to report on these separately to students and parents.

The collection of information for the Year 12 school-based assessment grade must not begin before the completion of the Year 11 course.

The components and weightings for Year 12 are mandatory.

NESA also requires schools to submit an estimated examination mark for all students entered for the optional HSC examination in English Studies.

</tbody>
</table>

The Year 12 formal school-based assessment program is to reflect the following requirements:

- a maximum of four assessment tasks
- the minimum weighting for an individual task is 10%
- the maximum weighting for an individual task is 40%
- one task must be a collection of classwork demonstrating student learning across the modules studied with a minimum weighting of 30%
- assessment of the Common Module must integrate teacher or student selected related material.
- only one task may be a formal written examination with a maximum weighting of 20%
Information about the collection of class work in English Studies

The assessment of a collection of classwork is designed to allow students to demonstrate their learning across all of the modules studied in each year. This collection of work may include items of classwork that have been refined as a result of teacher feedback throughout the year. This work may be published in a variety of forms and media.

Information about the awarding of grades in English Studies

Schools will use the Achievement Level Descriptions for English Studies to award grades for school-based assessment. NESA monitors the grades awarded by all schools and conducts work sample reviews to ensure the grades reported on NESA credentials are comparable. Information on retaining and submitting student work samples is available under Awarding Grades on the NESA website.

Information about the formal written examination in English Studies

Students who are planning to sit the optional English Studies examination must sit a formal written examination as part of their assessment program so that an estimated examination mark can be determined.

The formal written examination may assess a broad range of course content and outcomes. Schools may choose to replicate the timing and structure of the HSC examination.

Information about the estimated examination mark for all students entered for the optional HSC examination in English Studies

NESA requires schools to submit an estimated examination mark for all students entered for the HSC examination in English Studies. This mark is an estimate of likely performance in the HSC examination and will reflect the student’s achievement on a task or tasks similar to the HSC examination, such as a trial HSC examination. The estimated examination mark should not be revealed to students as it is only used in the case of a successful illness/misadventure application.
HSC Examination Specifications

The external HSC examination measures student achievement in a range of syllabus outcomes.

The external examination and its marking relate to the syllabus by:

- providing clear links to syllabus outcomes
- enabling students to demonstrate the levels of achievement outlined in the performance band descriptions
- applying marking guidelines based on criteria that relate to the quality of the response
- aligning performance in the examination each year to the standards established for the course.

English Studies HSC Examination Specifications

Students studying English Studies may elect to undertake an optional HSC examination. Should a student seek an Australian Tertiary Admission Rank (ATAR), the examination mark will be used by the Universities Admissions Centre (UAC) to calculate the ATAR. Students who do not sit for the English Studies HSC examination are not eligible for the calculation of an ATAR.

The examination will consist of one written examination paper worth 70 marks in total.

The time allowed is 2 hours and 30 minutes plus 10 minutes reading time.

The paper will consist of four sections.

Section I: Common Module – Texts and Human Experiences (20 marks)

There will be five to six questions.

Questions may contain short-answer and objective-response parts.

Questions will be based on stimulus and/or unseen texts related to the Common Module.

At least two items will be common to English Standard.

Section II: Common Module – Texts and Human Experiences (20 marks)

There will be one question.

The question will require a sustained response based on the candidate’s prescribed text.

This question may include stimulus and/or unseen texts.

This question will be common to English Studies, English Standard and English Advanced.

Section III: Elective modules (15 marks)

There will be one question.

The question will require a sustained response based on one of the candidate’s chosen electives using the texts studied.

This question may include a stimulus.
Section IV: Writing Skills  

There will be one question.

The question will require an imaginative, persuasive, informative or reflective response to stimulus and/or unseen text.
Adjustments to Assessment for Students with Special Education Needs

It is a requirement under the Disability Standards for Education 2005 for schools to ensure that students with special education needs can access and participate in education on the same basis as other students.

Some students with special education needs will require adjustments to assessment practices in order to demonstrate what they know and can do in relation to syllabus outcomes and content.

These may include:

- adjustments to the assessment process. Some examples include additional time, rest breaks, the use of a reader and/or scribe or specific technology
- adjustments to assessment activities. Some examples include rephrasing questions, using simplified language or alternative formats for questions
- alternative formats for responses. Some examples include writing in point form instead of essays, scaffolded structured responses, short objective questions or multimedia presentations.

Schools are responsible for any decisions about adjustments to course work and formal school-based assessment tasks throughout Year 11 and Year 12. Decisions regarding adjustments should be made in the context of collaborative curriculum planning. To access adjustments for the HSC examinations, an application for Disability Provisions must be submitted to NESA.

Providing adjustment does not restrict a student’s access to the full range of grades or marks.

Examples of adjustments to assessment for students with special education needs can be found in course support materials. Additional advice is available on the NESA website.
English Life Skills

Students undertaking the English Life Skills course will study selected outcomes and content informed by a collaborative curriculum planning process. Assessment should provide opportunities for students to apply their knowledge, understanding and skills to a range of situations or environments. Students undertaking Life Skills courses are not required to complete formal assessment tasks. Teachers are best able to determine the progress of the student.

Students may demonstrate achievement in relation to English Life Skills outcomes independently; with adjustments or with support. The type of adjustments and support will vary according to the particular needs of the student and the requirements of the activity.

Additional information about Life Skills eligibility, programming, planning and assessment is available on the NESA website.
Reporting in Stage 6

Year 11

Schools are responsible for awarding a grade for each student who completes a Year 11 course (except Life Skills and VET courses) to represent their achievement. These grades are determined by the student’s performance in relation to the Common Grade Scale for Preliminary Courses. Teachers make professional, on-balance judgements about which grade description best matches the standards their students have demonstrated by the end of the course.

Teachers are required to ensure that the grades awarded are consistent with published standards. This means that the grade a student receives in one school can be compared to the same grade anywhere in NSW. To ensure judgements are consistent with statewide standards, teachers compare their student work with work samples on the NESA website that are aligned to the A to E common grade scale.

Year 12

The use of both school-based assessment and, if applicable, an external examination allows measurements and observations to be made at several points and in different ways throughout the Year 12 course, and provides a valid and reliable assessment of students’ demonstration of the knowledge, understanding and skills described for each course.

Students who leave school prior to the Higher School Certificate examinations will receive a Record of Student Achievement (RoSA). It records grades for their completed Stage 5 and Year 11 courses and any participation in Stage 6 courses that were not completed.

HSC Credentials

The HSC credentials received by students report the school-based assessment and, where applicable, external examination measures of achievement.

All students studying English Studies for the HSC will have their school-based assessment reported on NESA credentials as a grade (A to E).

Students who sit the optional HSC examination will have an HSC mark and performance band derived from the HSC examination only. The HSC mark and performance band will be reported on a separate line to the school-based assessment grade.

Student performance in the English Studies optional exam is reported against standards on a course report. The course report contains:

- a level of achievement for the performance band descriptors
- an HSC mark located on the performance scale
- an examination mark.

The course report also shows graphically the state-wide distribution of HSC marks of all students in the course. The distribution of marks is determined by students' performances against the standards and not scaled to a predetermined pattern of marks.
